- Codecademy Academy | 2020

### Web Application Development with .NET MVC

- TopLearn Academy | 2025

### Responsive Web Design & Grid Systems with Bootstrap

- Khayyam Novin Institute | 2020

### Object-Oriented Programming Fundamentals with C#

- Khayyam Novin Institute | 2018

## Languages

- **Persian:** Native proficiency
- **Kurdish:** Native proficiency
- **English:** Professional working proficiency (Capable of reading technical documentation, debugging, and professional communication)

## Summary

Detail-oriented Front-End Developer and Computer Engineering student with hands-on experience in web design and development. Specialized in creating responsive layouts and engaging user interfaces. Highly capable of managing end-to-end freelance projects, delivering robust code, and collaborating on modern web solutions.

## Experience

**Job Title:** Front-End Developer (Contract)

**Company/Project:** Collaborative Web Project

**Date:** August 2023

### Descriptions:

- Developed and implemented the website front-end based on Figma UI/UX designs utilizing HTML, CSS, and Bootstrap.
- Collaborated closely with back-end developers to ensure seamless API integration and data flow.
- Optimized website responsiveness and effectively troubleshooted cross-browser compatibility issues and bugs.

## Skills

### Technical Skills

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), SASS / SCSS, jQuery
- **Frameworks & Libraries:** React.js, Bootstrap
- **Web Animations & Interactivity:** GSAP (GreenSock Animation Platform), ScrollTrigger, Advanced UI Effects
- **Databases & Backend Basics:** MySQL, SQL Server, C# basics

### Tools & Methods

- **UI/UX Tools:** Figma (Design-to-Code translation)

**Development Workflow:** Responsive Web Design, Cross-Browser Compatibility, Debugging

## Education

### Bachelor of Science in Computer Engineering

Urmia University | September 2023 – Present
